

TOTAL SCIENCE™

Public hygiene:

Total™ is a long awaited product for the cleaning industry; in fact Total™ can be easily mixed with other existing cleaning products from all categories household, commercial or industrial. There is no logical reason not to use it as an additive to existing solutions or new solution to be created.

Also Total™ can be use as a stand alone product, to be sprayed on surfaces, every where.

Many areas are ready for Total™ like agriculture, schools, day cares, public transportation systems, restaurants, retail stores, food stores, commercial laundries, etc.
